

Environmental Policy

The activities of the company are involved in are essential to the maintenance and development of a healthy and prosperous society.

The Directors of Clear Watch Security Limited recognise the known environmental implications of their activities and will cause operations to be carried out in such a manner as to ensure a high standard of environmental care. The Company will review its policies, services and activities and act wherever necessary, to meet its commitment to the environment.

In order to make this intention a reality, each Site Manager is to ensure that:

- They promote the development of improved standards and methods of construction and manufacture that are energy conscious and utilise all materials in an efficient manner.
- They will identify the potential of substances, smoke, dust, noise and vibration to cause pollution of the environment at the assessment stage.
- They cause materials to be handled and disposed of in a manner that does not damage the environment.
- They cause the impact of the company's operations on the environment to be controlled in such a manner that the short and long term affects are nil when possible, or are reduced to the lowest acceptable level.
- They are to promote and maintain close relationships with enforcing authorities and environmental organisations, as appropriate.
- Provisions for supervision, training, instruction and information for all Company personnel on all environmental policies.
- Provisions for any Environmental occurrence in accordance with current regulations are available and act on accordingly.
- To comply with regards to any Environmental requirements stipulated by the Client.
